

Prospect shops and brands for FLIGHT OF DREAMS

FLIGHT OF DREAMS, the new commercial complex with the first-ever Boeing 787 Dreamliner in its centre, is scheduled to open this summer. Today, Central Japan International Airport is pleased to announce the list of the prospect shops and brands for the commercial area of FLIGHT OF DREAMS.

FLIGHT OF DREAMS complex is composed by a commercial area open for everyone and a fee required exhibition and contents area. The commercial area has the American north-western area of Seattle, where Boeing was founded, as main concept. The interior was designed inspired by the Seattle area and, in the same way, the restaurants and brands have popular and fine products from that area. Original Seattle brands that come for the first time to Japan, Seattle and north-west American products that will be seen for the first time in Japan, and Seattle inspired new businesses, will form part of the fresh and attractive line up of shops. It is expected to be an extraordinary space where the visitors can enjoy a formidable close up view of the impressive machine while shopping and dining under its wing.

With the recent addition of THE PIKE BREWING RESTAURANT & CRAFT BEER BAR and STARBUCKS, there are now 14 prospective shops for the commercial area.

More information about the future shops and brands for FLIGHT OF DREAMS can be found on the next page.
