
FLIGHT OF DREAMS

Number of visitors has reached half a million

FLIGHT OF DREAMS, a pavilion built at Chubu Centrair International Airport which showcases the first ever built Boeing 787 Dreamliner (ZA001) opened on October 12, 2018. Since the opening, the pavilion has attracted many visitors at a rate exceeding its original plan of 1.5 million visitors in the first year of opening and Central Japan International Airport Company is pleased to announce that the total number of visitors* has reached half a million on January 17 (98 days since opening).

*total number of visitors includes admission entry to FLIGHT PARK, the first floor exhibit area.

New information regarding FLIGHT OF DREAMS will be periodically uploaded on the official website (<https://flightofdreams.jp>).
