

## About the opening of the 4th parking area (P4)

Chubu International Airport Co., Ltd. has built a 4th parking area (hereinafter referred to as “P4”) in response to increasing air travelers in recent years that will begin operations at 10:00 am on Friday, December 20, 2019.

P4 is a 1,100 lots parking area located on the south side of Terminal 2 (T2), which started operating on September 20. With its inauguration the total number of parking lots combined with existing parking buildings (P1, P2, P3) will be 7,800 lots.

### 1. P4 Overview

Name: Chubu Centrair International Airport Parking 4

Type: Flat parking area

Number of lots: 1,100 lots approx.

\* 22 lots are for people with physical disabilities and 15 for microbus.

Parking Fares (Standard Car): Same as P1,P2 and P3

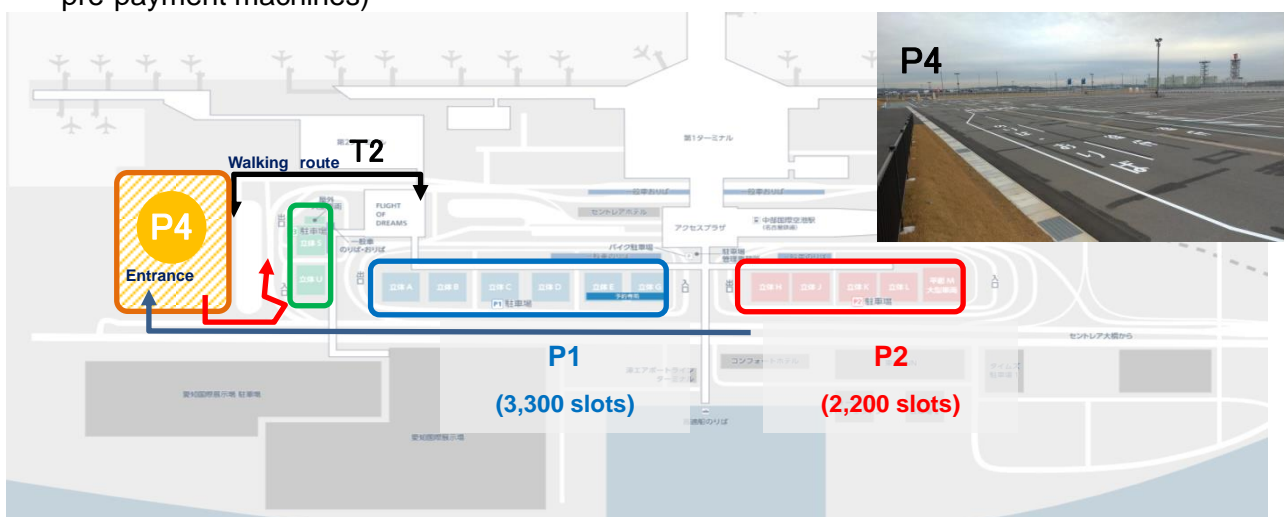

Time	Fare
1 hour	300 yen (free for less than 30min)
1 day (24hours)	Maximum of 1,600 yen
From 5 to 30 days	8,000 yen

\* Various discounts are available

\* Large car charges apply to cars over 2.5m in height

### Major Features:

- For customers using Terminal 2 (Minimum 200m to Terminal 2: 3 minutes)
- Convenient delivery with car number recognition system
- Pre-payment machine is installed before T2 (cannot be paid using the Access Plaza or other pre-payment machines)
