

## Introduction of Advanced Security Check Systems and Passenger Security Service Charges

Central Japan International Airport Co., Ltd. has decided to introduce advanced security check systems to both the existing terminal and Terminal 2 for international flights so that customers can use Chubu Centrair International Airport safely. The security checkpoints for international flights at the existing terminal will be modified on a large scale for the first time. These measures will make it possible to create an environment that offers the highest level of security services more smoothly than before for international flight customers. We appreciate your understanding regarding the inconvenience during the modification period.

There have been growing social needs to enhance and advance the aviation security. To maintain and upgrade the security services for increased safety and convenience, we will introduce passenger security service charges. These additional charges apply to international flight customers. We will make every possible effort to ensure safety of customers who use Chubu Centrair International Airport.

### 1. Introduction of advanced security check systems and modification of the security checkpoint at the existing terminal
